ICCS COLLEGE OF ENGINEERING AND MANAGEMENT

FOR MOULDING SOCIAL ENGINEERS

An ISO 9001:2015 Certified Institution

ICCS

COLLEGE OF ENGINEERING & MANAGEMENT

പരിക്കാം വളരാം ICCS നോടൊപ്പം

The ICCS College of Engineering, previously known as SETCEM, was established in 2010, approved by AICTE, Affiliated to APJ Abdul Kalam Technological University (KTU) & Directorate of Technical Education (DTE). We have expanded our Engineering education into different branches namely B.Tech in Civil Engineering, Mechanical Engineering, Computer Science & Engineering (Data Science), Computer Science & Engineering, Food Technology. Diploma In Automobile Engineering, Civil Engineering, Electrical & Electronics Engineering, Food Processing Technology, Mechanical Engineering, which open a door towards a broad range of opportunities before students. As a newly established institute, we have been successful in implementing various approaches and strategies in teaching and engineering the process of learning to bring a unique experience. Throughout our pioneer towards success, the extracurricular activities and out of the box programs are aimed to enlighten the students with emerging technologies and support the innovative, entrepreneurial mind set among them. Here at ICCS, you are not just getting enrolled into a collage for your formal studies, we are promising a captivating journey through the important days of your life with salient tools that can help you excel in every sphere of life.

VISION

To be at the forefront in community development through quality education by empowering young generation with technology and social skills to mold as Social Engineer.

MISSION

To engineer the next generation with emerging technologies, social skills and essential guidance at the right moment. Also to provide high quality academic and professional learning Opportunities in various fields which are designed to advance technical, intellectual, cultural, social and economic well-being of the society.

Core Values

ACADEMIC EXCELLENCE

NURTURING SOCIAL SKILLS

MULTI DISCIPLINARY APPROACH

SKILL FOCUSED EDUCATION

OUTCOME BASED TRAINING

COLLABORATIVE LEARNING

EARN WHILE YOU LEARN

ENTREPRENEURIAL CULTURE

Chairman's Message

▼ Dr. Sojan V Avirachan

We at ICCS, aim to develop confidence, self-motivation, research, and problem solving skills sets and imbibe value education amongst our students. We give top priority to discipline and knowledge and the application of the same for societal progress and upliftment through our students, which would be made possible through our value-based education. By joining ICCS, you would be introduced to a plethora of activities, extracurricular programs, various student clubs, add-on courses, noteworthy workshops, trailblazing hackathons, and technological events that are designed to help students increase their industry exposure, which essentially contributes to their career enhancement and employability rate. We can ensure the highest quality of education and academic approach through our dedicated, highly-qualified academic advisory committee and the industrializing

committee, for the practical establishment of the same. Our advisory boards are proactively participating in designing various programs to reshape the students for the industry needs and trends. College aims at becoming

a front runner in developing the next generation teaching and learning methods and to foster individual excellence and participation of our students in the full range of academic, spiritual, cultural, social, and physical activities and make them all-rounders. At ICCS, you will be welcomed by a well-qualified team of faculty whose pedagogy is a blend of strategically admired lectures, practical sessions, industrial exposures, workshops, seminars, hackathons, and more. Joining ICCS is going to be the next most important decision you would be taking in your life, which we can assure, to be one of the best fits for your academic and career excellence in the future.

I look forward eagerly to meeting you aboard ICCS soon!

Executive Director's Message

Prof. Dr. JAI M. PAUL
Executive Director

ICCS College of Engineering and Management (ICCSCEM) has turned into an ideal ecosystem for the growth of industry, in India and abroad to develop faculty resources and to create an environment which is conducive for engineering talent. The teaching-learning process is the heart of our institute. We believe in learning by doing and in empowering our students so that they are prepared to accept the diverse challenges of the future. We work with the leaders in education growth. We utilize modern tools and technologies to deliver our programs. We firmly believe that our Engineers are going to contribute significantly in nation building and world progress. If you are thinking of becoming a leader of tomorrow, then you should consider becoming a part of ICCSCEM.

Principal's Message

The scope of education is to make one understand one's real aim or goal as ensuring harmony of Individual, Family, Society, and Nature. Education should facilitate students to have the understanding, commitment, competence, and the practice of living with definite human conduct and to participate in the development of a humane society. Understanding of 'what to do (Value Education)' along with the understanding of 'how to do (Technical Education)' is required to ensure technical competence holistically. ICCS College of Engineering and Management is making an commendable effort in this direction. ICCSCEM provides exposure and a conducive environment to students and teachers aiming at personal transformation and through that, the evolution of a humane society. I can see the gradual transformative changes in the conduct of faculty members and students. Best wishes to ICCSCEM.

Prof. Dr. K.Nirmal Raja
Principal

Dean Academic's Message

Prof. Dr. VIBIN ANTONY P
Dean Academics

In the ever-changing world of technology, we understand the importance of staying ahead of the curve. In the heart of ICCS College of Engineering and Management (ICCSCEM) lies a commitment to academic excellence, technological innovation, and the holistic development of every student. Our faculty members, renowned for their expertise in their respective fields, are dedicated to imparting cutting-edge knowledge to our students. ICCSCEM stands out for its hands-on approach to learning. Our cutting-edge laboratories and collaborative spaces are designed to be dynamic environments where theoretical knowledge meets practical application. Beyond the classrooms and labs, we emphasize the importance of character, leadership, and community. We believe in empowering our students to become not just experts in their fields but responsible citizens and leaders. Together, we aim to shape not just engineers but visionaries who will lead the way in an ever-evolving technological landscape. The opportunities that await you at ICCSCEM are as vast and dynamic as the world of engineering itself. Welcome to ICCSCEM where innovation meets education, and where your journey as a future engineer begins.

National Technology Day Celebration

ICCS College of Engineering and Management and Cochin Scopful Bio Reserch Private Limited jointly Organized a seminar on indigenous technology for a sustainable future, at ICCS College Campus. In the seminar Dr.Baby Chakrapani and Dr.Umar Salim presented papers. College Chairman Dr.Sojan V Avirachan Inaugurated the seminar. More than 200 students from various schools & colleges from Thrissur district participated in the seminar.

FACULTY

At ICCS, we have teamed up with well-qualified, industry experienced faculties with ultimate excellence in teaching as well. The management is eager to provide them with further training and facilities for research and development in their respective fields of knowledge. Our ever growing collaborations with the industrial world also adds to the overall improvement of our Faculty Members

CAMPUS LIFE

ICCS College of Engineering and Management provide one of the best facilities in the region. It is one of the few colleges in Kerala to upgrade its classrooms to facilitate teaching through modern tools, techniques and technology. Fully furnished classrooms with Smart-boards, Wi-Fi enabled campus with CCTV coverage for added security, Audio-Visual aids, Tutorial rooms, State of Art Seminar hall, Central computing facility, Library, Hostel, Transportation, Canteen and sports facilities are available. We have facilitated all the required categories of laboratories relating to each department, which in turn helps students to achieve the highest quality education without relying on any external help. With our highly qualified industry-experienced faculty, the lab experience would be much more realistic than books.

At ICCS College there is a firm belief that it is easier to groom one's personality when they learn while doing it. There are many student run clubs that are in place for students to take charge and lead in getting things done. They are Innovation and Research Society, Google Developer Student Clubs (GDSC), Girls with Tech (GWT), National Service Scheme (NSS), Arts Club, Dance Club, Energy Club, Nature Club, Media Club, Sports Club etc. Every Department has a Student run association with office bearers and teams to organize and coordinate for various events. The institute is established within a peaceful, eco-friendly environment, with the aim of rural development. Also the environment helps students to focus on the curricular, extracurricular activities with utmost enjoyment without any external distraction.

The startup and incubation cell of college promotes the entrepreneurial and budding ideas of student. The graphene-nanocomposite cement unit, hybrid bike startup, Robotic farming unit, LED manufacturing unit, advanced CNC production unit, are actively serving this purpose. The institution has MOU with leading companies around the globe like Energia solar solutions Pvt Ltd., Ecomount Engineer LLP, Lemarc India Establishment, Avodha, Joy e-bikes, Lords Football Academy etc.. to get the best industrial exposure to the students.

EXPERTS OPINION

◀ Dr. Ramesh Unnikrishnan (Advisor, AICTE)

“ Engineering 4.0 bring issues to light about digitalization among organizations and give assistancelike data preparation, chance to view and test new arrangements across the country which helps to develop student’s careers. ”

Mr. Mohan S. Menon, Project Lead – RRPCL, (JV of IOCL,BPCL & HPCL) ▶

“ Engineering 4.0 is the enabler of Industry 4.0, also known as the fourth industrial revolution, which is essentially the trend towards manufacturing automation and information exchange throughout manufacturing. It encompasses everything from the Internet of Things and machine learning to smart manufacturing robots. Industry 4.0 is the next stage of the manufacturing industry. It is for this reason that we have to embrace it. ”

◀ Dr. K John Thomas

Retd Dean, Faculty of Engg& Tech, Kerala Agricultural University Ex. Chairman (Kerala State Agro Industries Corporation)

“ The initiative taken by the ICCS College of Engineering and Management is strengthen the educational Programme in Engineering is noteworthy specially the Engineering 4.0. but transforming a vision into reality is not going to be easy, it would need single minded determination, unshakable self-confidence and tremendous amount of consisting hard work. We have to support the new initiate taken by ICCS College of Engineering and Management in all possible way specially the Engineering 4.0 idea ”

Mr. Yasar Khuthub, (AI & Data Science Consultant, Google) ▶

“Innovation and revamping of multiple aspects of technical education system by college authorities, to create a new aspiration goal of 21st century is highly appreciable. Deployment of disruptive technologies like Artificial Intelligence will enhance the potential career opportunities to students.

STARTUP FACILITY

ICCS College of Engineering and Management has started a LED Bulb Manufacturing Unit under the Energy Conservation Club on 26-02-2022 as a part of Community extension activity. The objective is to develop the skill of assembling and testing of LED lights among the students. To enable the students to organize training classes on assembling and testing of LED bulbs for the community, and also to create awareness about energy conservation and supply LED light among the community. Dr.Abdul Salam Mohammad Former Scientist ISRO visited the Collage and also the LED Bulb Manufacturing Unit The LED Bulb was handed over to Dr.Abdul Salam Muhammed by Director Dr.Nisam Rahman A as our token of love and respect.

STUDENTS FEEDBACK

I am very happy to study in this college. Very educated teachers are there to teach the subjects. The college ambience is beautiful with its natural beauty and it is near the hilly area which gives me a positive energy. I am proud to be a part of the ICCS family.

Mr. Rushaid K.S, S5 EEE, Diploma

“The best thing about the College was being part of a supportive environment, where everyone is focused, help each other.

Mr. Akshaykumar C. R, S3, MECH, B.Tech

My first impression about the college was a bit sceptical but that was not the case, the teachers and staff they are well caring and friendly. It has a good vibe making it a great place to enjoy and improve your academic skills

Mr. Dolus K. Shyju, S3, CSE B.Tech

From the very beginning, the institute and especially the amazing teachers have been successful in engraving in us the sense of responsibility. The Academy gave me the endurance to continue through challenges and the confidence to know I was fully equipped to handle whatever those challenges might be.”

Mr. Ajith Manoj, S5, EEE, Diploma

The atmosphere of my college is really nice. Infrastructure is up to your expectation. It has excellent teaching faculty, well equipped labs, good classrooms, library and sports room etc. Teaching staff are very supportive and maintaining good relation between students. College provide free wifi in campus, well maintained canteen with good foods. College conducts many cultural and other programs related to sports, technical events throughout year.

Ms. Kanishka Jayakumar, S7, CE, B.Tech

It's a great place to improve both Academic and Non academic skills with Qualified and Professional Faculty and a Great team of non teaching Staff.

Ms. Afreen Aslam, S3, CSE, B.Tech

INTERNSHIPS FOR DIPLOMA STUDENTS

Future world is in the hand of electric vehicles. Keeping this in mind joy e bikes has put forward innovative technology for electric bikes that will emerge in the near progress of time. With innovation being an integral part, our idea is to bring something new to the market, which can also help fight climate change. ICCS College of Engineering and Management is dedicated to establishing educational and social institutions to match the upcoming needs and demands. We provide futuristic view towards molding our students.
